the Pecos Valley and all lines are represented by commodious, well managed houses, while the professional men are of superior class. There are tributary to Roswell about 5,000 acres of orchards, three-fourths of which are in bearing, whose fruits are known throughout the West for their excellent color, flavor and keeping qualities: 25,000 acres of alfalfa and 5,000 to 6,000 acres in small fruits, vegetables, cereals, etc. The stock interests tributary to Roswell are very large, three million pounds of wool are shipped annually, as well as many thousands of cattle, horses, sheep and lambs. Population 9,000. Altitude 3,600 feet.

SANTA FE.

"The City Different"

The capital of New Mexico and second largest city in the State, enjoys the distinction of being the oldest town on the American continent. Its permanent settlement by Europeans in 1543 antedates the founding of Jamestown and the landing of the Pilgrim Fathers at Plymouth by more than 20 years. It is the headquarters of the federal and state officers, the State Supreme court and the Catholic Diocese and Arch-bishop of New Mexico, Arizona and Colorado; it is adorned by many fine modern buildings, including the new Capitol, Federal building, court house, penitentiary, Indian schools, State Deaf and Dumb school, college for boys and an academy for girls, also a parochial school, a Presbyterian mission school for boys and one for girls, business houses and private residences, and is rendered interesting by the presence of the ancient adobe Palace and the oldest church and the oldest house standing on American soil. It has an excellent public school system, and all the religious denominations are well represented. It is lighted by electricity. Its climate is remarkably equable. The summers are cooler at Santa Fe than any other meteorological station, while the mean temperature during January, which is the coldest month in the year, is about 28 degrees Fahrenheit. There are three railroads—the Atchison, Topeka and Santa Fe, Denver & Rio Grande and the New Mexico Central Railroads.

Among the new buildings now being erected, is a large addition to both the St. Vincents and Sunmount Sanitarium, costing over \$100,000.00, the new Fonda Hotel, which will cost when completed, over \$300,000.00; the new Postoffice and Federal Building, costing \$300,000.00; a large \$100,000.00 office building; a \$50,000.00 Baptist Church and the Santa Fe Club's new home and golf links; besides many new homes and small business houses.

The American School of Archaeology has been established and will be headquarters for research and excavating of

Cliff Dwellers, in connection is the New Mexico Museum.

Work will commence in the summer on a Knights of Columbus home to cost \$100,000.

Santa Fe county is the oldest mineral producer in the southwest. Gold, silver, lead, zinc, copper, turquoise, fire clay and building stone are found in large quantities. The leading districts are the Old and New Placers, the San Pedro, Golden, Macho, Glorieta and Cerrillos. At Madrid, near Cerrillos, are found large coal deposits and the coal deposits extend over a considerable portion of that part of the country. The county seat, Santa Fe, capital of the state, is rich in historic interests and ideally located as a health resort.

Its immediate surroundings possess great scenic beauty. On all sides rise majestic mountains to a height of 13,000 feet, while to the east, west and north are National Forests, 20 miles to the west is the wonderful Pajarito Cliff Dwellers' Park with 20,000 prehistoric habitations. Population of the city 12,500. Altitude 6,990 feet.

ACTUAL COST FOR BOARD AND FURNISHED ROOM

Teachers' course in common branches, high school and college work will be offered in all departments in the Summer Term.

Ample accommodations for all.

For information write to

W. O. HALL, President

Silver City

New Mexico

SILVER CITY.

(Prepared by Silver City Chamber of Commerce.)

Silver City's citizenship of 4,500 people is inspired with confidence, based upon the business necessity for a great health and trading center at this point, and every modern convenience of welfare has been established.

Located as it is, in the southwestern part of the State of New Mexico, sixty-five miles north of the International boundary of Mexico, in the latitude of Savannah, Georgia, and Cairo, Egypt, having an altitude of 6,000 feet, Silver City has been declared by United States Government physicians to be the ideal health resort of the Southwest.

In the center of a great cattle and mineral section, Silver City's position as the distributing point for this great territory is impregnable. The Atchison, Topeka & Santa Fe Railway serves this section, Silver City being the terminal of the Rincon-Deming branch. The mining camps of Santa Rita, Hurley, Fierro, Pinos Altos, Tyrone, Hanover and Mogollon, with a combined population of over 12,000, patronize Silver City's business institutions. Stock raising has always been an important business in this section of the country and in addition there are two important irrigated districts for which Silver City is the main trading center.

Bank deposits of over \$2,000,000 show the thrift of Silver City's people and are a true index of the general prosperity of the community.

SILVER CITY, N. M.

With the Chino Copper Company, only sixteen miles east of here, mining at a rate of 70,000,000 pounds of copper the year; the Phelps-Dodge Burro Mountain Copper Company, twelve miles west of here, producing a similar ratio and with other mining companies in close proximity outputting as never before, Silver City is a stirring scene of present day activity.

Grant County, the county seat of which Silver City is one of the richest in New Mexico, the assessed valuation being over \$24,500,000. Besides the copper, there are to be found in this county, gold silver, iron, vanadium, alum, turquoise, zinc, lead and meerschauum mines. The immense timber lands of the Gila National Forest are to be found in Grant county. The estimated poulation of the county is 25,000.

SOCORRO

County seat of Socorro county on the Atchison, Topeka & Santa Fe Railway, 76 miles south of Albuquerque, and 180 miles north of El Paso, Texas. A fine productive valley surrounds Socorro, where farming and fruit raising are at the best. A branch railway runs from here to Magdalena. Good churches and schools, location of the State School of Mines.

Located here also is one of the finest hotels in the Southwest, The Val Verde.

Telephone service and electric light plant, flouring mill, brewery and ice plant and large stores with comfortable residences. Population 2,000. Altitude 4,500 feet.

Why Business Men Advertise in Directories

BECAUSE they want to share in the business that is going on in
their community.

- They want to be found when wanted.
- they want to be considered alive to all business prospects.
- more goods are bought and sold through the Directory than any other advertising medium.
- no wise man would buy goods unless he got quotations from all the people in the line of business that he is seeking to buy from.
- they are anxious to have their line of goods before the people seeking their commodity.
- Our Directories are the only mediums giving a full list of people in business in New Mexico regardless of their size or rating.

The First National Bank

OF TUCUMCARI

The Oldest and Largest Bank in Quay County.

CAPITAL AND SURPLUS \$130,000.00

TUCUMCARI, N. M.

TUCUMCARI.

County seat of Quay county, and division point on the Rock Island, El Paso & Southwestern, Tucumcari & Memphis, and Dawson Branch of the El Paso & Southwestern. The shops of the El Paso & Southwestern are located here. The monthly payroll is approximately \$70,000. The city derives its name from a mountain five miles from the city. This mountain was named by the Indian Chief Geronimo, "Tucumcari" with the Indian meaning of Mother Breast, so named because of its shape. The surrounding country is occupied by cattle men and farmers. Although a young city it has \$110,000 invested in school buildings and equipment and many monuments in the usual building lines, two fine bank buildings, telephones, elegant factory and other public improvements. Has a new opera house costing \$50,000. It lies in the dry farming belt and although farming is successful, the large portion of the country people devote their time to cattle raising. The United States Land Office and the Governmental Experimental farm are also located here. It has 30 miles of cement walks and crossings. Mild climate. Population 4,000. Altitude 4,194 feet. For any further information write the Chamber of Commerce.

WILLARD.

A town in Torrance county, on the Atchison, Topeka & Santa Fe Ry., at its junction with the New Mexico Central R. R. Surrounded by a farming country, while its stock growing interests are large. Nearly all lines of business are represented, although there is room for more. The town is growing rapidly with modern business houses. Good churches and a school house erected at a cost of \$6,000, promises to become one of the important cities of New Mexico. Wells have been sunk showing 1,000 gallons of water per minute, to be used for irrigation purposes, which assures Willard and vicinity abundance of water for irrigation at a reasonable cost. Present population 250. Altitude 6,125 feet.

ALBUQUERQUE & CERRILLOS COMPANY

G. A. KASEMAN, Pres. & Mgr.

MINERS AND SHIPPERS OF "CERRILLOS" ANTHRACITE AND BITUMINOUS
COALS AND "MADRID" SMITHING COAL

"CERRILLOS" ANTHRACITE is better than any Anthracite Coal
marketed west of Chicago.

"CERRILLOS" BITUMINOUS is the most profitable for dealers to
handle and the most satisfactory for domestic purposes
of any coal marketed in New Mexico or Arizona.

"MADRID" BLACKSMITH COAL is the equal of any smithing coals.

PATENT AND TRADE MARK SERVICE

For Western Inventors and Manufacturers

LEGAL DEPARTMENT

Makes record searches; prepares, files and prosecutes patent and trade mark applications in all countries. Writes and records contracts, assignments, royalty agreements, etc.

TECHNICAL DEPARTMENT

Prepares drawings for both the Patent Office and the Manufacturer. Develops inventions along engineering lines. Prepares cuts and writes advertising matter. Assists inventors in marketing inventions, etc.

Write for particulars. No charges for preliminary advice.

MACHINERY

When a customer orders a machine, it is not only the machine itself that is ordered, but also the service that goes with it. The All Franklin Fuel and Feed Co. is a company that has been in business for over 50 years, and has a reputation for being a reliable and trustworthy company. We have a large stock of machines, and we are able to deliver them to our customers in a timely manner. We also have a team of experienced mechanics who are able to repair and maintain our machines. We are committed to providing our customers with the best possible service, and we are confident that we can meet all of their needs.
